

*Helping You Control Alternative Energy!*

# WATTS AGAINST CANCER!

Control Alt Energy is personally affected by Cancer.

In turn we want to do our part to help fund an end to this miserable disease that effects so many. Going forward, your purchase of a solar PV system from Control Alt Energy, will help the fight against cancer in that Control Alt Energy will donate .10 per watt as follows:

\$.05 per watt to the **American Cancer Society**.

\$.05 per watt to **Johns Hopkins Medicine** to help fund cancer research.

For example:

A small 3kW system is 3,000 watts, so this would equal \$150 each to both organizations.

(3,000 X .05 = \$150.00)

Reduce your electric bill, save the earth, and help us fight cancer! That's a win, win win for everyone!
